Student Progress

A short user guide for the Office, Teachers and Guardians
শিক্ষার্থীর অগ্রগতি — ব্যবহার নির্দেশিকা

Student progress uses class-test results to show which students are slipping, so the school can act early. When a student needs help, the Office sets an **improvement action**: a small daily task for the teacher, the guardian, or both. When the action ends, the student's next test shows whether it worked.

Who does what

OFFICE / PRINCIPAL

Watches and decides

Opens the board, sees who is at risk, creates actions and checks that the daily tasks get ticked.

TEACHER

Does the school part

Sees the task on the **Today** screen and ticks "Done today" or "Couldn't today" each day.

GUARDIAN

Does the home part

Sees the task on the **Today** screen (the first screen of the app) for their child and ticks it every evening.

How one action works

1 · SPOT
The board shows a student is *at risk* or *falling* in a subject.

→

2 · PLAN
The Office creates an action: what the teacher and the guardian do each day, for how many school days.

→

3 · DO
Every school day, the teacher and the guardian tick their task in the app.

→

4 · CHECK
After the last day, the next class test is compared with the one before: *Before 32% → After 48%.*

Words you will see

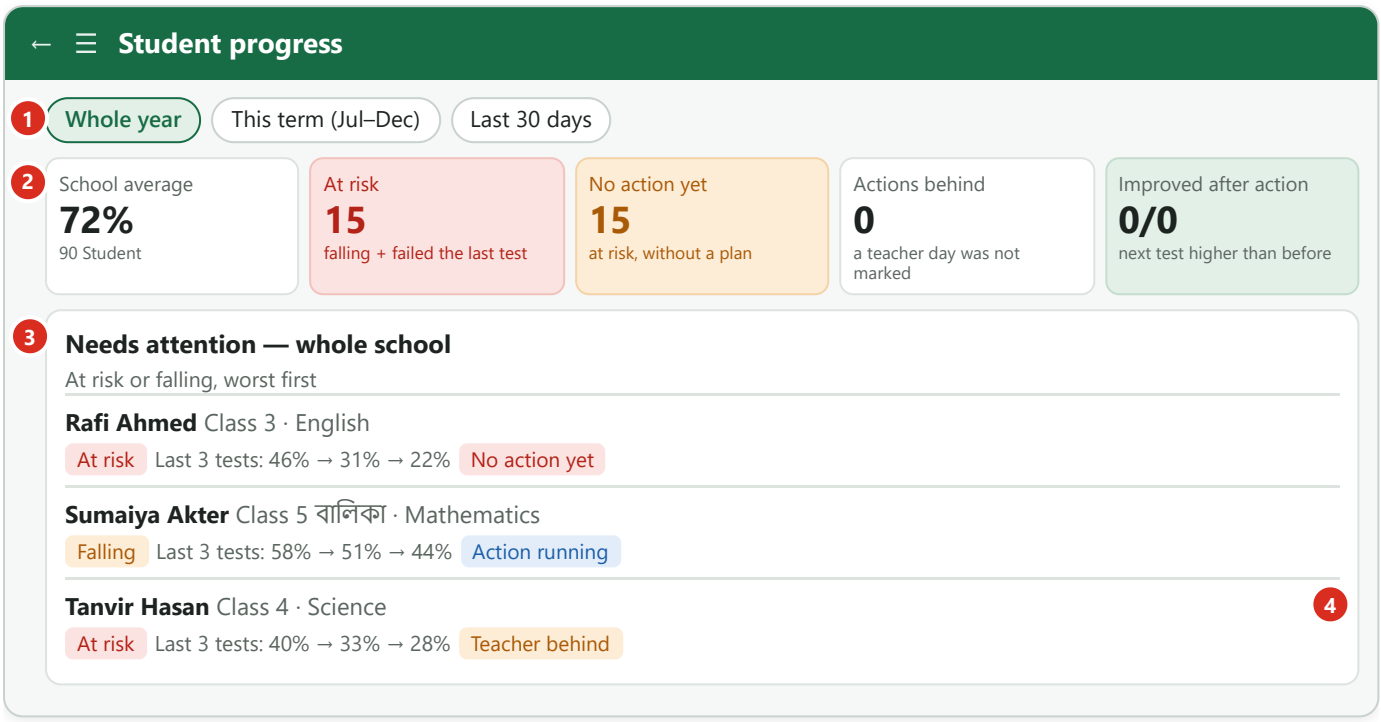

Word	What it means
At risk ঝুঁকিতে	The student's overall marks are going down **and** they failed their most recent class test. (At least 2 tests are needed.)
Falling নামছে	In one subject, each of the last three tests was lower than the one before, for example 44% → 38% → 32%.
▲ / ▼	The last test in that subject was at least 1 mark-percent higher (▲) or lower (▼) than the one before.
Improvement action উন্নতির কাজ	A daily task for a fixed number of school days, for one student or a whole section, in one subject.
Not marked চিহ্নিত হয়নি	A school day has passed and nobody ticked "Done" or "Couldn't" for it.

Everything is calculated from **published class-test results**. If a test has not been published, it does not count yet. An absent student's test counts as an absence, not as a zero.

OFFICE / PRINCIPAL

1. Read the board

Open the menu (☰) → **Trackers** → **Student progress** (শিক্ষার্থীর অগ্রগতি). Only the Office and the Principal see this page.

1. **Choose the period.** *Whole year* (January–December), *This term* (July–December) or *Last 30 days*. All numbers below change with it.
2. **Read the five tiles.**

Tile	What it counts
School average	The average of every student's overall % (the number under it is how many students have results).
At risk	How many students are at risk.
No action yet	At-risk students who have **no** running or upcoming action. **Bring this number to zero.**
Actions behind	Running actions where a past teacher day was never ticked. Follow these up.
Improved after action	Finished actions where the next test was higher than the test before, e.g. *3/4*.

3. **Work down the "Needs attention" list.** Worst first. A student can appear once for each subject where they are falling. Tap a name to open their page.
4. **Check the action badge** on each row: No action yet nothing planned · Action running on track · Teacher behind a day was not ticked · Action done +6% finished, with the change in marks.

> **About the small coloured numbers next to "Student progress" in the menu:** they are the same counters as **Class Test** (papers waiting for review, overdue results). They are not student-progress numbers.

OFFICE / PRINCIPAL

2. Look at one class or one student

The section grid: every student × every subject

Further down the board, pick a section chip (Nursery … Class 5). The grid shows each student's average in each subject.

Nursery | KG | Class 1 | Class 2 | **Class 3** | Class 4 বালক | Class 4 বালিকা | …

Class 3 — Every student × subject + Class action (2)

All students | At risk only | Has a running action | ▲▼ = the last two tests in that subject

Student	Bangla	English	Math	Science	Overall	Actions
Class highest	*96%*	*94%*	*98%*	*92%*	*94%*	
Class average	*78%*	*69%*	*71%*	*74%*	*73%*	
Rafi Ahmed At risk	**55% ▼**	**33% ▼**	**48%**	62%	**50%**	—
Nadia Islam	88% ▲	76%	91% ▲	84%	85%	—
Arif Rahman	70%	64% ▲	**52% ▼**	67%	63%	1 running (1)

- **Colours:** 80% and above · 60–79% plain · **40–59% amber** · **below 40% red**.
- (1) The **Actions** column shows how many actions this student has, e.g. *2 running · 1 behind · 1 done*.
- (2) When most of a class is weak in a subject, use **+ Class action**: one action for the whole section.

The student page

← **Rafi Ahmed**

Rafi Ahmed Class 3 At risk
Average **50%** class 73% · Direction **Falling ▼**
Recurring weakness: *spelling (3), tenses (2)*

By subject

English 33% ▼ class 69%
Last 3 tests: 46% → 31% → 22%
Teacher's note: *spelling mistakes* + New action

Improvement actions + New action
No actions yet.

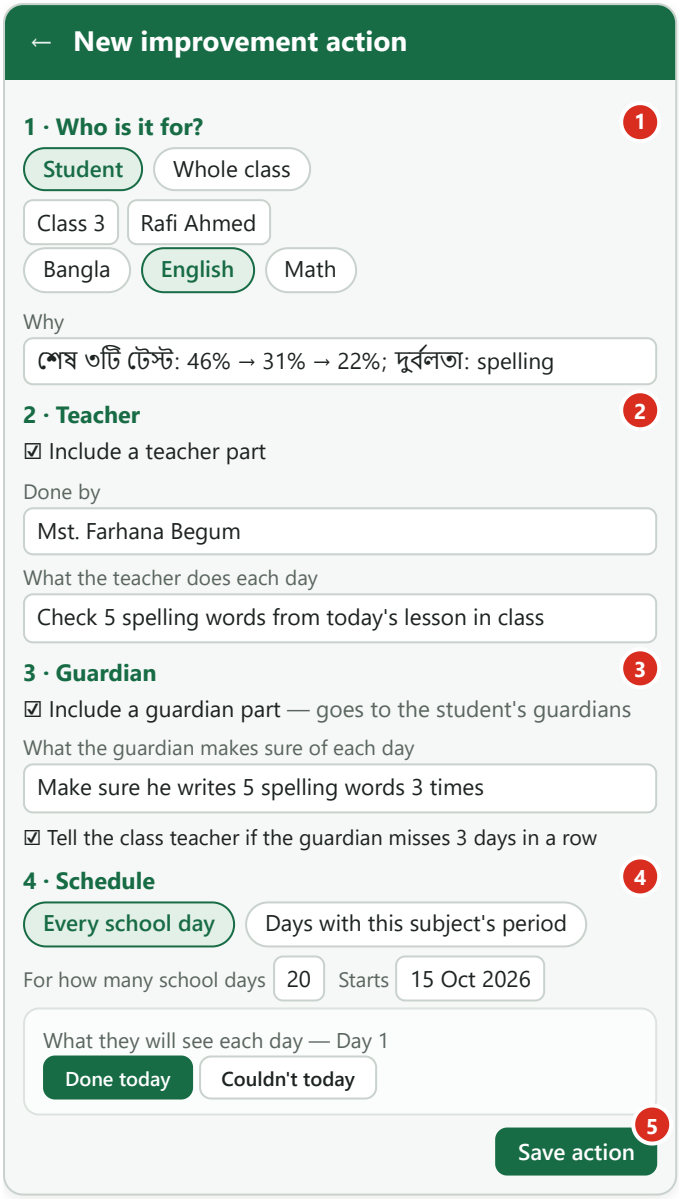

Tap a student's name on the board or in the grid. You will see:

- their average next to the class average, and whether they are **rising**, **falling** or **steady**;
- **recurring weaknesses**: notes the teachers wrote on 2 or more tests;
- each subject with its last three tests and the teacher's latest note;
- every improvement action for this student, including class actions for their section.

> Tap **+ New action** next to the weak subject: the student and the subject are filled in for you.

OFFICE / PRINCIPAL

3. Create an improvement action

Open it from **+ New action** (student page) or **+ Class action** (section grid).

1. **Who and which subject.** One student or the whole class. The *Why* box is filled in from the test results; you can edit it.
2. **Teacher part.** The subject's routine teacher is picked for you; change it if needed. Write **one small task** they can do every day.
3. **Guardian part.** Write what the guardian makes sure of at home. It goes to every linked guardian (for a class action, to every family in the section). Keep the 3-day alert on, so the class teacher can call a family that stops ticking.
4. **Schedule.** *Every school day*, or only the days when the class has this subject's period. Default 20 school days (1–60). Fridays and holidays are skipped automatically.
5. **Save action.** The teacher and the guardians get a notification straight away.

Write tasks people can do in 5 minutes. Teachers and guardians see your words exactly as written, so use the language they read best (Bangla for most guardians).

You need at least one part (teacher or guardian). After saving, the text **cannot be edited**. To change it, stop the action and create a new one.

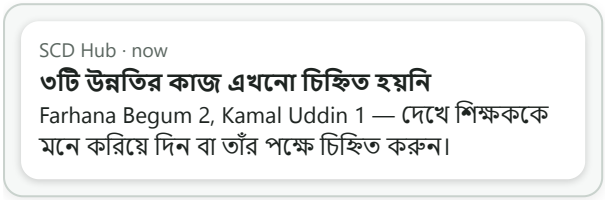

If the class has no period of that subject in its routine, choose *Every school day*; the other option will not save.

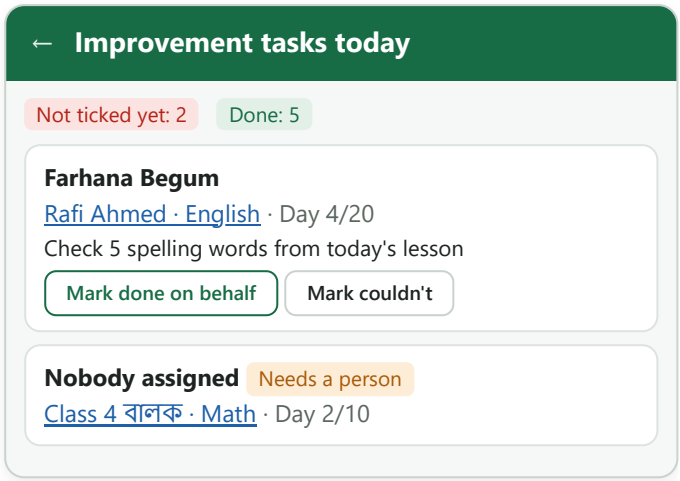

OFFICE / PRINCIPAL

4. Follow up every day

At 11:00 on school days

If any teacher has not ticked today's task, you get **one notification** listing who still owes a tick. Your **Today** screen also shows an *Improvement tasks today* card. Tap **Open the list**.

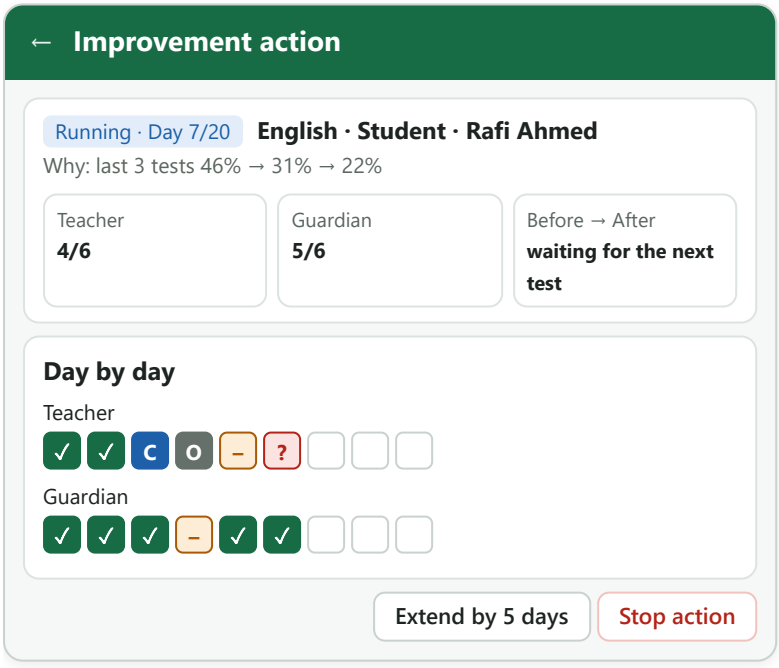

Marking on a teacher's behalf

First remind the teacher. If you know the task was done, tap **Mark done on behalf** and say how you know: *Teacher told me*, *I checked the copy* or *I did it myself*. It is shown as **O** (marked by Office), never as the teacher's own tick. You can also mark earlier missed days from the action's page.

The action page: day by day

- ✓ Done
- C Done by the cover teacher
- O Marked by Office / Principal
- – Couldn't (with a reason)
- ? Not marked: nobody ticked it
- Still to come

Tap a past **?** day to mark it. *Days not done* lists the reasons given. For a class action, *Each family's ticks* shows which guardians are keeping up.

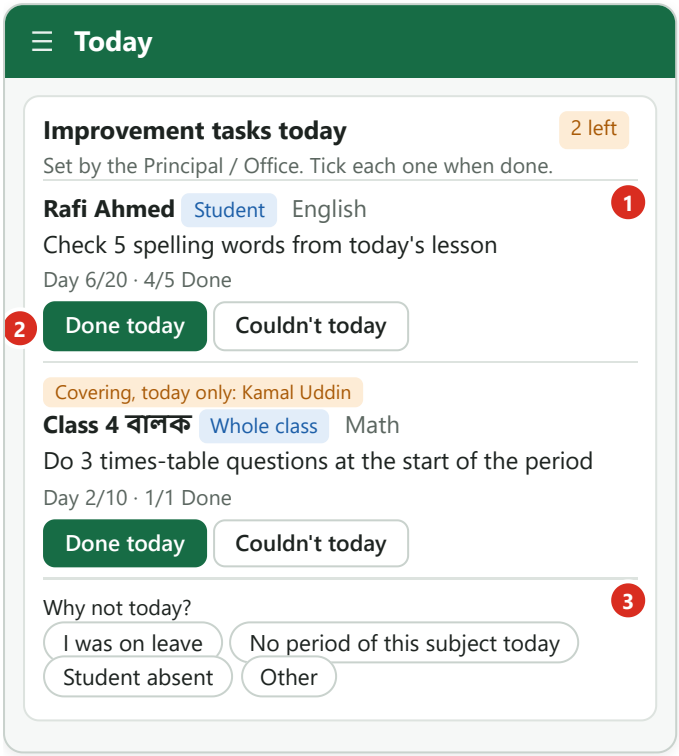

Extend by 5 days adds five more school days. **Stop action** ends it early and asks for a reason.

Teacher on leave? That day's task goes to the teacher covering the period. On the leave's *cover* screen, under *Improvement tasks while away*, you can pick someone else for any day. Days marked Needs a person have nobody yet.

TEACHER

For teachers: your daily task

You don't need to open any board. When the Office gives you an improvement action, you get a notification (নতুন উন্নতির কাজ) and the task appears on your **Today** screen every scheduled school day.

1. **Read the task.** It shows the student (or whole class), the subject, the task, and how far along it is: *Day 6/20*.
2. **Do it, then tap "Done today"** (আজ করেছি). The card shows *Done today* ✓.
3. **Couldn't do it?** Tap "Couldn't today" (আজ পারিনি) and pick a reason. That is still an answer, and the Office can see why.

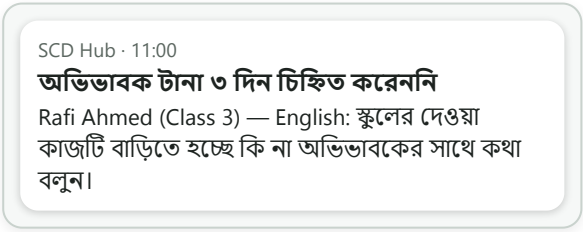

> **Tick it the same day.** You can only tick *today's* task. Tapped the wrong button? Use **Undo** before the day ends. At 11:00 the Office sees whose tasks are still unticked.

Covering for a colleague

If a teacher is on leave and you cover their period, their task for that day appears on *your* Today screen with Covering, today only . Your tick counts as yours (**C** on the action's strip).

Class teachers: the "guardian missed 3 days" alert

If a family in your section leaves the home task unticked for 3 school days in a row, you get a notification:

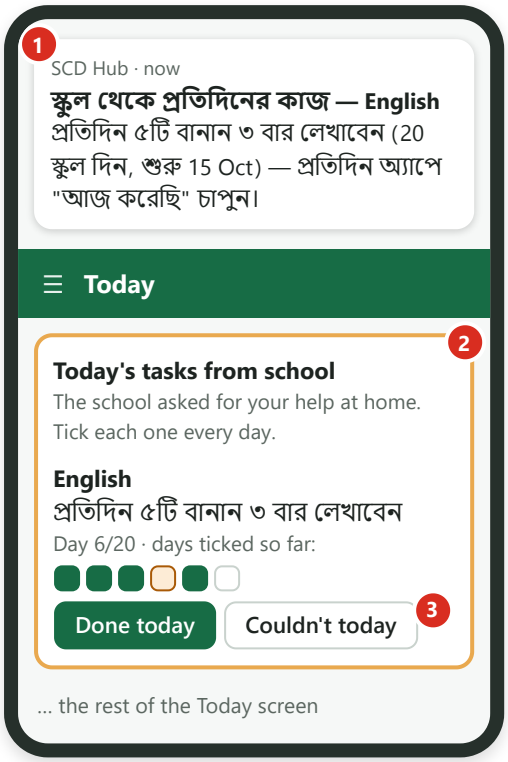

Please call or message the guardian and ask whether the home task is being done.

GUARDIAN

For guardians: helping at home · অভিভাবকদের জন্য

Sometimes the school asks for your help at home with one subject, for a few weeks. You will be told in the app, and you only need to tick one button each day.

1. **You get a notification** (স্কুল থেকে প্রতিদিনের কাজ) telling you the subject, the daily task and how many school days it runs.
2. **Open the app.** On the **Today** screen (the first screen you see), the orange-bordered card *Today's tasks from school* appears at the top on every task day. If you have more than one child, choose the child first.
3. **After helping your child, tap "Done today"** (আজ করেছি). You will see *Done today ✓ — thank you*.

If you could not do it today

Tap **Couldn't today** (আজ পারিনি) and choose a reason:

- Child was sick (সন্তান অসুস্থ)
- No time today (আজ সময় হয়নি)
- Didn't get the questions (প্রশ্ন/কাজ পাইনি)
- Other (অন্য কারণ)

> **Please tick every evening, even if you couldn't do it.** You can only tick *today's* task. Pressed the wrong button? Tap **Undo** the same day. If you miss 3 days in a row, the class teacher will contact you.

The little squares show your past days: green = done, orange = couldn't, red = not ticked. No card means there is no task that day (for example on holidays).

When the task ends, the school compares your child's next class test with the one before. Thank you for helping!

Quick answers

Question	Answer
Why isn't a new test showing on the board?	Only published class-test results count. Once the result is published, it appears the next time the board is opened.
Why is a weak student not marked “At risk”?	They need at least 2 tests where they were present, a downward overall trend, **and** a failed last test. A weak student who is improving is not at risk.
What is the pass mark?	Each class test has its own pass mark; the board uses that test's mark.
Can a teacher see the board?	No. Teachers see only their own tasks on the Today screen. The board is for the Office and the Principal.
Can guardians see marks or other children?	No. Guardians see only the daily task for their own child.
Can I change an action's text after saving?	No. Stop it and create a new one. You can add days with *Extend by 5 days*.
Does a holiday added later move the days?	No. The days are fixed when the action is saved. Add days with *Extend by 5 days* if needed.
How is “Before → After” worked out?	*Before* is the last test in that subject before the start day. *After* is the first test after the last day. For a class action, both are the section's average.
Can a teacher tick yesterday?	No. Only the Office or the Principal can mark a past day, and it shows as **O**.
The Student progress menu item shows numbers. What are they?	Those are the Class Test counters (papers to review, overdue results), not progress numbers.

A good weekly routine for the Office

1. Open **Student progress**. Bring **No action yet** to zero by creating actions for at-risk students.
2. Check **Actions behind** and follow up with those teachers.
3. Look at finished actions (Action done). If a student did not improve, try a different task.
4. Answer the 11:00 notification each school day: remind teachers, or mark on their behalf if you know it was done.
